SPANISH	ITALIAN	ENGLISH

EXPERIENCE

Group Project: Online Bookstore.   APRIL – MAY 2024

BackEnd Developer and Team Leader.
https://github.com/mariantonieta/GestionArchivos

–I led the development of an online library using Scrum methodologies, assigning tasks, facilitating communication and ensuring that objectives were met.
–Implemented file management functionality using Java, including reading, writing and modifying text and binary files.
–I collaborated with other groups in assembling the application, resolving bugs and performing unit testing with JUnit5.

Personal Project: Section Registration and Initiation System.   OCTOBER – NOVEMBER 2022
FullStack Developer.
https://github.com/mariantonieta/login–register

–I designed and developed a complete React application for a registration and login system.
–Implemented the backend application using Node.js, Express and MySQL.
–Designed and documented API endpoints.
–Implemented error handling strategies to ensure a smooth and robust user experience.
